

Group 1

Miguel Timothy Cabrera
Gabriel Frost Jandoquele
Carlos Miguel Reopirio
Kurt Luis Tabaranza

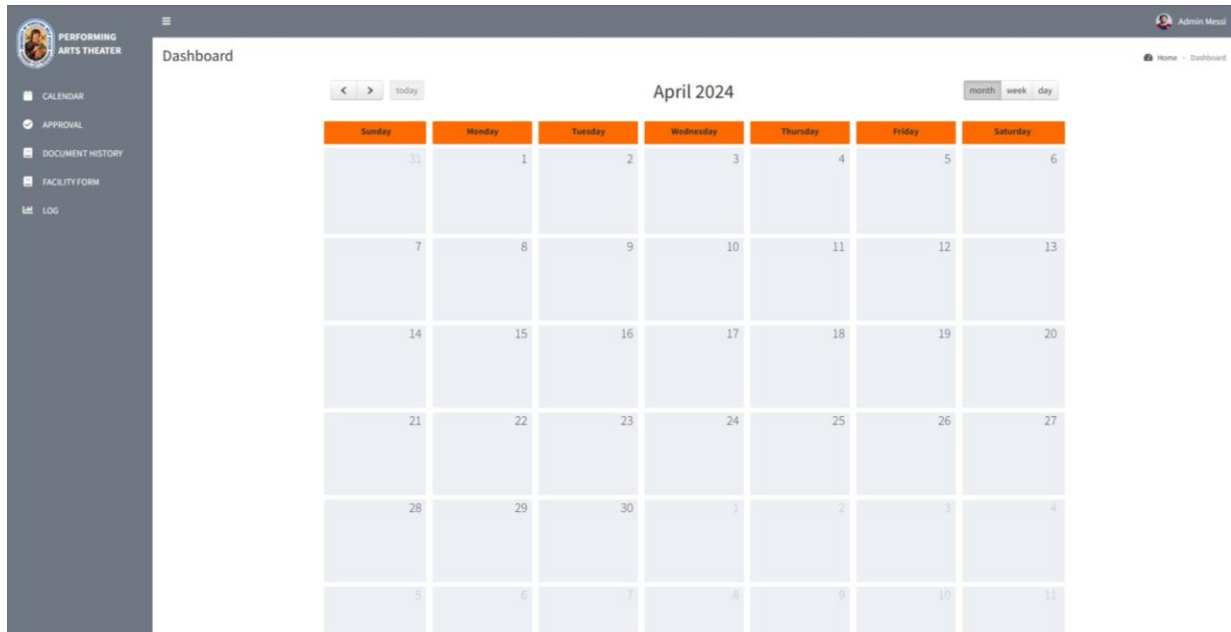

Upon accessing the login page, students will be greeted with a user-friendly interface designed for ease of use. The page is structured to provide a seamless login experience, ensuring that students and admin can effortlessly access the system.

Logging and Error Handling:

Username and Password Fields: Students and admin are required to enter their unique username and password to access the system securely. These credentials are provided by the institution for each registered student.

Comprehensive error handling mechanisms are implemented to handle various scenarios, such as incorrect login credentials or database connection errors. Additionally, logging functionalities are integrated to record relevant events and errors for troubleshooting and auditing purposes.

The homepage of the Performing Arts Theater Event Management System serves as the primary landing page for students, providing them with a comprehensive dashboard to navigate and manage event reservations effectively. This section highlights the key features and functionalities of the homepage dashboard.

Centralized Dashboard:

The homepage serves as a centralized dashboard, offering students easy access to essential tools and resources for event management. It provides a user-friendly interface that streamlines the process of planning, scheduling, and coordinating events within the Performing Arts Theater.

Interactive Calendar:

At the forefront of the homepage is an interactive calendar, allowing students to view available dates for event reservations at a glance. The calendar provides a visual representation of scheduled events, enabling students to select their preferred date for hosting an event with ease.

Calendar: The calendar component displays an interactive calendar interface, allowing students to view available dates for event reservations. It provides a visual representation of scheduled events, enabling students to select their preferred date for booking.

Approval Section: This section displays pending approval requests for event reservations. Students can track the status of their reservation requests and take necessary actions based on the approval status.

Approval Workflow: After submitting a reservation request, students can track the approval status through the approval section. Administrators review the requests and approve or reject them based on availability and other criteria.

Approval Status Monitoring:

Students can track the status of their event reservation requests directly from the homepage. The approval section prominently displays pending approval requests, enabling students to monitor the progress of their requests and take necessary actions based on the approval status.

Noted By:
Oliver Junio
 Department Head
 Status: Signed

Recommending Approval:
 (For Audiovisual Facilities UPHSL)
Mr. Ruel B. Rilloraza
 Head of Audiovisual Facilities
 Status: Signed

APPROVED BY:
Dr. Ferdinand C. Somido
 Executive School director
 Status: Signed

Once everything is signed, provide a copy of accomplishment form to the following:

 Audiovisual Facilities Office
 Audiovisual (MU)

Reservation Duration: 72hrs

Document History: Students can access a document history section where they can view past documents related to event reservations, contracts, agreements, or any other relevant documents. This helps in tracking the history of communication and agreements associated with events.

Document Management: Students can upload and access relevant documents such as event proposals, contracts, or agreements through the document history section. This ensures transparency and facilitates efficient communication between students and administrators.

Facility Form: The facility form component allows students to submit detailed requests for specific facilities or amenities required for their events. Students can specify their requirements, such as audio-visual equipment, seating arrangements, or technical support. This feature streamlines the process of coordinating event logistics and ensures that students' needs are met effectively.

Facility Request Submission: Students can utilize the facility form component to submit detailed requests for specific facilities or amenities needed for their events. This feature streamlines the process of coordinating event logistics and ensures that students' requirements are communicated effectively to administrators.
